

Businesses that are not eligible for PPP loans are identified in 13 CFR 120.110 and described further in SBA's Standard Operating Procedure (SOP) 50 10, Subpart B, Chapter 2, except that nonprofit organizations authorized under the Act are eligible. (SOP 50 10 can be found at <https://www.sba.gov/document/sop-50-10-5-lender-development-company-loan-programs>.)

d. I have determined that I am eligible. How much can I borrow?

Under the PPP, the maximum loan amount is the lesser of \$10 million or an amount that you will calculate using a payroll-based formula specified in the Act, as explained below.

e. How do I calculate the maximum amount I can borrow?

The following methodology, which is one of the methodologies contained in the Act, will be most useful for many applicants.

- i. Step 1: Aggregate payroll costs (defined in detail below in f.) from the last twelve months for employees whose principal place of residence is the United States.
- ii. Step 2: Subtract any compensation paid to an employee in excess of an annual salary of \$100,000 and/or any amounts paid to an independent contractor or sole proprietor in excess of \$100,000 per year.
- iii. Step 3: Calculate average monthly payroll costs (divide the amount from Step 2 by 12).
- iv. Step 4: Multiply the average monthly payroll costs from Step 3 by 2.5.
- v. Step 5: Add the outstanding amount of an Economic Injury Disaster Loan (EIDL) made between January 31, 2020 and April 3, 2020, less the

amount of any “advance” under an EIDL COVID-19 loan (because it does not have to be repaid).

The examples below illustrate this methodology.

i. Example 1 – No employees make more than \$100,000

Annual payroll: \$120,000

Average monthly payroll: \$10,000

Multiply by 2.5 = \$25,000

Maximum loan amount is \$25,000

ii. Example 2 – Some employees make more than \$100,000

Annual payroll: \$1,500,000

Subtract compensation amounts in excess of an annual salary of

\$100,000: \$1,200,000

Average monthly qualifying payroll: \$100,000

Multiply by 2.5 = \$250,000

Maximum loan amount is \$250,000

iii. Example 3 – No employees make more than \$100,000, outstanding EIDL loan of \$10,000.

Annual payroll: \$120,000

Average monthly payroll: \$10,000

Multiply by 2.5 = \$25,000

Add EIDL loan of \$10,000 = \$35,000

Maximum loan amount is \$35,000

iv. Example 4 – Some employees make more than \$100,000, outstanding

EIDL loan of \$10,000

Annual payroll: \$1,500,000

Subtract compensation amounts in excess of an annual salary of

\$100,000: \$1,200,000

Average monthly qualifying payroll: \$100,000

Multiply by 2.5 = \$250,000

Add EIDL loan of \$10,000 = \$260,000

Maximum loan amount is \$260,000

f. What qualifies as “payroll costs?”

Payroll costs consist of compensation to employees (whose principal place of residence is the United States) in the form of salary, wages, commissions, or similar compensation; cash tips or the equivalent (based on employer records of past tips or, in the absence of such records, a reasonable, good-faith employer estimate of such tips); payment for vacation, parental, family, medical, or sick leave; allowance for separation or dismissal; payment for the provision of employee benefits consisting of group health care coverage, including insurance premiums, and retirement; payment of state and local taxes assessed on compensation of employees; and for an independent contractor or sole proprietor, wage, commissions, income, or net earnings from self-employment or similar compensation.

g. Is there anything that is expressly excluded from the definition of payroll costs?

Yes. The Act expressly excludes the following:

- i. Any compensation of an employee whose principal place of residence is outside of the United States;
- ii. The compensation of an individual employee in excess of an annual salary of \$100,000, prorated as necessary;
- iii. Federal employment taxes imposed or withheld between February 15, 2020 and June 30, 2020, including the employee's and employer's share of FICA (Federal Insurance Contributions Act) and Railroad Retirement Act taxes, and income taxes required to be withheld from employees; and
- iv. Qualified sick and family leave wages for which a credit is allowed under sections 7001 and 7003 of the Families First Coronavirus Response Act (Public Law 116–127).

h. *Do independent contractors count as employees for purposes of PPP loan calculations?*

No, independent contractors have the ability to apply for a PPP loan on their own so they do not count for purposes of a borrower's PPP loan calculation.

i. *What is the interest rate on a PPP loan?*

The interest rate will be 100 basis points or one percent.

The Administrator, in consultation with the Secretary, determined that a one percent interest rate is appropriate. First, it provides low cost funds to borrowers to meet eligible payroll costs and other eligible expenses during this temporary period of economic dislocation caused by the coronavirus. Second, for lenders, the 100 basis points offers an attractive interest rate relative to the cost of funding for comparable maturities. For example, the FDIC's weekly national average rate
